

# STOP PIU'

Washable water-based paint for interiors and exteriors

## NATURE AND USE

**Stoppiù** is a washable water-based wall paint for interiors and exteriors, characterised by excellent coverage and spreading rate, excellent whiteness and exceptional resistance to washability. Top of the range of the Stoppiani Industrial building line, Stoppiù is a paint formulated with styrene-acrylic resins in emulsion, inorganic and organic pigments resistant to light and selected inert mineral extenders. The product has a high resistance to washability tested in accordance with ASTM D 2486 (over 30,000 double brush strokes) and is easily applicable with traditional systems on masonry walls, wooden substrates, etc., duly primed. Just two coats of product allow you to obtain a uniform finish. **Paint meeting ECO LABEL product requirements.**

**Ecolabel for interior paints – Innovhub SSI test report Nro S-ISSI-2305515**

## TECHNICAL DATA

Type of Binder:	Styrene – Acrylic
Appearance:	Thixotropic
Specific weight:	Kg/l 1,45 ± 0,100 @ +20°C
Solids by weight:	% 56 ± 2%
Colour:	White and on request

## SUBSTRATE PREPARATION

**New plaster:** The substrate must be perfectly cured, dry, clean and brushed; completely free from easily detachable friable particles. Then proceed to apply a coat of primer to even out the absorption of the substrate using a special Insulating fixative, then apply 2 coats of Stoppiù.

**Already painted plaster:** Old paints that are not perfectly anchored must be removed mechanically. Then proceed as on a new substrate.

## APPLICATION DETAILS

Application:	Brush, roller, spray
Thinner:	Water
Thinning:	% 20 – 40
Pulizia attrezzi:	Water
Drying @ +25°C:	3-6 hours
Overcoating @ +20°C:	8 -16 hours (R.H. equal to 50%) N.B.: Minimum temperature for film forming is +5°C
Application Temperature:	°C Between +5°C e +40°C
Relative Humidity:	% Not exceeding 80
Suggested Thickness:	40 - 45 µm dry (DFT) per coat (wet WFT about 125 µm)

## HANDLING STORAGE AND SAFETY PRECAUTIONS

**Warning:** All handling and/or use activities of the material and its components must strictly refer to the given indications in the Safety Data Sheet. The following advices are stated by common sense and in good faith, they are uncompleted and do not substitute the content of each specific safety data sheet of the product.

**Handling:** The material must be used only by professional and qualified applicators suitably trained. All the operations involving the use of the product, must be carried on in compliance with all the relevant National Health, Safety & Environmental standards and regulations.

**Precautions:** When the product is used in enclosed areas (rooms, containers, vessels, etc.) it is imperative to use adequate means providing the necessary air circulation, to be granted during the whole application and coating polymerization time, also to avoid conditions open to potential explosion danger.

All electrical installations must always be grounded. Where explosion hazards exist, the workmen should be required to use only non-ferrous tools and wear conductive non-sparking shoes and clothing. Explosion and flame-proof equipment too are required.

**Storage and transport:** Keep far from flames, sparks or heat sources. Do not leave exposed under direct solar action. Store under shelter in original unopened packaging, in cool, dry and ventilated areas, at temperatures between +5°C and +35°C.

**Shelf life:** 12 months in the suggested storage conditions (original unopened packaging)

N.B.: **Product for professional use only  
and exclusively for the uses not regulated under CE Directive 2004/42/CE.**

**Refer to Material Safety Data Sheet**

**Access catalogues, data sheets and company presentations**
