AND BENZIL ALCOHOL FREE

EPOXY COATINGS FIT FOR POTABLE WATER CONTACT

INTERNAL COATINGS FOR CONTACT WITH POTABLE OR FOR HUMAN CONSUMPTION WATER OFFER A WIDE RANGE OF PROTECTIVE, ECONOMICAL AND PROCESS ADVANTAGES

To provide the above result, the coating must not contaminate or react with the liquid in contact, preserving the purity of transported or stored liquids.

Our choice has preferred coatings based on epoxy resins which, as well known, are not affected by interactions with chemical compounds and provide a high resistance to water abrasion, have long-lasting resistance against all acid, alkaline, saline environments. These coatings also provide an excellent

adherence to metal substrate, do not allow migration of substances to the transported water and maintain smooth surface allowing constant flow and discharge.

Moreover, they do not present stress decay or deterioration under heavy exercise conditions of penstocks: high speed, turbulence and pressures of the conveyed fluid.

ADVANTAGES

IMPROVED INSPECTION

PROTECTION DURING STORAGE

FASTER COMMISSIONING

REDUCED POLLUTION

INCREASED FLOW (PIPES)

REDUCED MAINTENANCE

MINIMUM DEPOSITS

PROTECTED PURENESS OF THE MEDIUM

PASSIVE CORROSION PROTECTION
(BARRIER EFFECT)

**COMPACT AND
HOMOGENEOUS
CONSISTENCY**

**PERFECT
SUBSTRATE
ADHERENCE**

SMOOTHNESS
for easy inspection
and cleaning from dirty

CONTINUOUS
and without defects

UNIFORM
in thickness in presence
of picks or angles

RESISTANT AND SUFFICIENTLY FLEXIBLE
Under natural structure movement or during transport and installation / Abrasion
resistant to allow cleaning and maintenance operations / Static pressures resistant
when required

Industrie Bruno Stoppani produces liquid paints and specialties for different industrial coating markets since late 1883. Our company offers numerous products such as primers, intermediates, finishes, coating systems certified and tested by official institutes for the different requirements of each operating environment.

Industry: petrochemical / urban and railways transport / chemical / energy / alimentary / Piping (on/off-shore) / Heavy Carpentry / Public works / Water systems / Agriculture / **Yachting:** Pleasure / Work / Fishing / Maintenance / **Building:** industrial
