INTERNAL COATINGS FOR GAS PIPELINES, JETFUEL AND OIL DERIVATIVES

IBS
INDUSTRIE
BRUNO STOPPANI
Paints and coatings since 1883

**PIPESTOP
STOPGAS
STOPCOAT
STOPFUEL**

RANGE OF INTERNAL COATINGS TECHNICALLY DIFFERENTIATED FIT TO TRANSPORT OR STORAGE MEDIUM WITH NUMEROUS ECONOMICAL AND PROCESS ADVANTAGES

In addition to be appropriate to the contact with the transported or stored medium without any contamination or reaction with it, these products form an anticorrosive barrier protecting the steel from the aggressions of a great variety of chemically different compounds, such as gas, oil, jet fuel, gasoil , saline solutions, gasoline, industrial waste water, sewage water, acid or alkaline light solutions, oils, etc.

ECONOMICAL ADVANTAGES

- FASTER COMMISSIONING
- INCREASED FLOW (PIPELINES)
- REDUCED MAINTENANCE AND ENERGY COSTS
- LOWER CAPITAL INVESTMENTS

PROCESS ADVANTAGES

- PROTECTION DURING STORAGE
- PROTECTED PURENESS OF THE TRANSPORTED MEDIUM
- LOWER DEPOSITS
- EASIER PRODUCT CHANGES
- EASIER DRYING OF THE PIPE
- FASTER PIGGING WITH EXTENDED EFFECTIVENESS
- IMPROVED INSPECTION OF THE PIPE

PRODUCTS RESULTING FROM THE EXPERIENCE OF MORE THAN 50 YEARS

Our offer, supported by specific experience in the pipelines sector of over 50 years and with millions of square meters coated, allows the choice between different products from traditional ones, improved in terms of both performance and application through continuous research, to high solids

products, solvent-free and water-based ones. A range that, in its formulation, production, application and use is also attentive to the environment in addition to performance, helping to preserve ecological balances

Our preferential suggestion involves epoxy resins due to their very high quality performances such as: high adhesion / chemical resistance / corrosion protection
